

Neoprene Polyester 0.9mm

BLACK

Material Type:..... Neoprene Polyester 0.9mm

Code..... FC-T-319

Colour Black

Weight..... 1140 g/m²

Thickness 0.9mm

Continuous Temperature -25 - +120°C

Base Fabric Construction

Weight..... 240 g/m²

Breaking Strength..... Warp 3400 N/5cm

Breaking Strength..... Weft 3200 N/5cm

Coating Details

Weight..... 450 g/m² Each Side

Care should be taken in selecting the most suitable quality for each application.

Advice is available from the sales team but final responsibility remains with the customer.
