

Heavy Duty Bolt Clamp

Material Type:.....Stainless Steel Band & Carbon Steel Bolt
Code.....FC-S-409

Our heavy duty bolt clamps consist of a 304 stainless steel band and bridge with a carbon steel bolt. The edges are bevelled for hose protection and the captive nut and spacer system allows clamping in the most demanding assemblies.

Larger sizes and a 302 stainless steel bolt can be accommodated, please contact the sales team.

Standard Bolt Clamp Range

PART No	MIN mm	MAX mm	PART No	MIN mm	MAX mm
FCM47	47	51	FCM112	112	121
FCM51	51	55	FCM121	121	130
FCM55	55	59	FCM130	130	140
FCM59	59	63	FCM140	140	150
FCM63	63	68	FCM150	150	162
FCM68	68	73	FCM162	162	174
FCM73	73	79	FCM174	174	187
